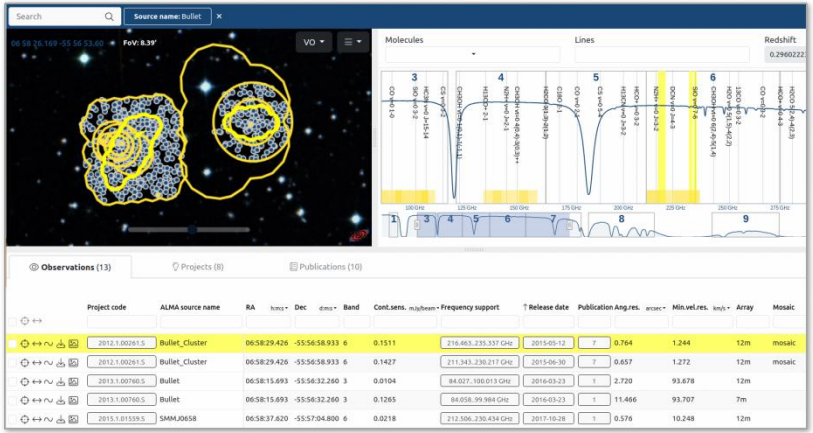
ALMA Science Archive

- **Archive overview**
  - Contains all the data observed with ALMA for science purposes
  - Archive for all users, not only PIs (1-year proprietary period)
- **Archive contents**
  - Main products: raw data, calibration scripts/tables
  - Some science-ready products
  - Quality Assurance (QA) reports

Example of query for a galaxy cluster



About 30% of +4500 ALMA papers use archival data!
